My Projects Say Hello

About Me

A little introduction about myself

Hello! My name is **N. Lakshmi Prasanna**.
I am a first-year B.Tech student in the Computer Science and Engineering program with a specialization in AI and related technologies.

I enjoy learning programming, developing websites, reading books, and discovering new things. My goal is to become a skilled software engineer and create technology that makes people's lives better.

I believe in confidence, continuous learning, hard work, and never giving up on my dreams.

My Education

My educational journey

Present — **B.Tech — Computer Science**
NRI Deemed University
Specialization: CSM — Artificial Intelligence and related technologies
Learning programming, computational mathematics, web development, and computer science fundamentals.

Completed — **Intermediate Education**
Indiraa College, Visakhapatnam
Studied intermediate-level subjects and prepared for engineering entrance examinations.

Completed — **Secondary School Education**
Indira School, Visakhapatnam
Built my academic foundation and participated in games and other activities.

Technical Skills

Technologies I am learning and exploring

- **HTML** — Creating the structure of web pages.
- **CSS** — Designing colorful and responsive websites.
- **Python** — Learning programming and problem-solving.
- **JavaScript** — Exploring interactive web development.
- **Artificial Intelligence** — Discovering AI concepts and useful tools.
- **Problem Solving** — Developing logical thinking step by step.

My Hobbies

Things that make me happy

- Reading Books
- Learning New Things
- Coding
- Playing Games
- Creative Activities

My Projects

My learning journey through practical projects

Travel & Tourism Website
A website that introduces beautiful travel destinations and helps visitors explore tourism information.
HTML CSS

Personal Portfolio
A personal website that displays my profile, education, skills, hobbies, achievements, and contact information.
HTML CSS

AI Tools Presentation
An educational presentation introducing artificial intelligence tools, their uses, benefits, and responsible use.
Generative AI Education

My Achievements

Small achievements that inspire me to grow

Sports & Games Achievements

I have received medals for participating in games and sports activities. These experiences have encouraged me to develop confidence, discipline, teamwork, and a positive attitude.

My biggest goal is to keep learning, improve my skills, and achieve more in the future.

My Resume
